SUMMARY

I am a Front End Web Developer with experience in e-commerce, e-learning, and user experience. Comfortable with HTML, CSS, Javascript/jQuery, React, PHP, Laravel, Node.js, MySQL, and testing frameworks Mocha and Chai. Seeking inclusive work environments, willing to re-locate and work remotely.

EMPLOYMENT

Brella Productions

Evanston, IL

Front End Web Developer / Programmer Level 3

Dec. 2018 to Current

I review, analyze, and modify programming systems including encoding, testing, debugging, and documenting programs. I'm responsible for working both with senior programmers and independently to create web and mobile technology based applications with estimated budgets and deadlines. I participate in all phases of development with a focus on structure and integration. Some duties include:

- Clarifying what actions the program is intended to perform
- Breaking down program specification into its simplest elements and translating this logic into a programming language
- Devising possible solutions to anticipated problems
- Working as part of a team to write a specific section of a program
- Combining all elements of the program design and testing it
- Testing sample data-sets to check that output from the program works as intended
- Conducting testing and installing the program into production
- Reacting to problems and correcting the program as necessary
- Conducting user acceptance testing to ensure the program can be used easily, quickly, and accurately

McMaster-Carr

Elmhurst, IL

Web Publisher

Sept. 2015 to Mar. 2018

- I designed, built, and maintained content for the McMaster-Carr website using a combination of SAP Master Data Management suite and custom in-house applications.
- I utilized stored product information data in a repository of hundreds of thousands of unique items to generate pages and product groups.
- I evaluated existing content to identify opportunities for improvement and redesign, and presented design plans to groups of three to twelve stakeholders for additional collaboration before developing the content.

Technical Sales Representative

Elmhurst, IL

Sept. 2015 to Feb. 2016

- I answered customer concerns in real-time via email and text message.
- I promptly problem solved issues with transportation, product explanation and application, website navigation, and compliance.
- I collected and cross-referenced a database of technical documents and customer inquiries.

SKILLS

WEB DEVELOPMENT: Full Stack Certification, HTML, CSS, Javascript, jQuery, MySQL, React, Node.js

EDUCATION

Northwestern University

Sept. 2009 to June 2013
